Method											Evaluation results				
											No. of Defects	D.O			
1	Sputtering	Tape burnishing	Application of lubricant	Head burnishing	Glide height test	Read/write test				Magnetic transfer	Tape burnishing	Glide height test	Optical investigation	1.3	B
2	Sputtering	Tape burnishing	Application of lubricant	Head burnishing	Glide height test	Read/write test		Tape burnishing		Magnetic transfer		Glide height test	Optical investigation	6	B
3	Sputtering	Tape burnishing	Application of lubricant	Head burnishing	Glide height test	Read/write test				Magnetic transfer		Glide height test	Optical investigation	7.7	B
4	Sputtering	Tape burnishing	Application of lubricant							Magnetic transfer		Glide height test	Optical investigation	1.3	B
5	Sputtering	Tape burnishing								Magnetic transfer	Application of lubricant	Glide height test	Optical investigation	1.5	B
6	Sputtering	Tape burnishing	Application of lubricant	Head burnishing	Glide height test	Read/write test			Optical investigation	Magnetic transfer		Glide height test	Optical investigation	1	A
7	Sputtering	Tape burnishing	Application of lubricant	Head burnishing					Optical investigation	Magnetic transfer		Glide height test	Optical investigation	1	A
8	Sputtering	Tape burnishing	Application of lubricant	Head burnishing					Optical investigation	Magnetic transfer		Glide height test	Optical investigation	1	A
